

HAMZA ALAHMEDI

Frontend-Focused Full-Stack Developer

Istanbul Turkey | +90 552 488 50 51 | hamza.m.alahmedi@gmail.com

Frontend-focused Full-Stack Developer with strong experience in React and modern UI development. Built full-stack academic projects using Spring Boot and MySQL, with solid understanding of APIs, authentication concepts, and database design. Comfortable working across the full request lifecycle and continuously improving backend depth.

Work

Frontend / Full-Stack Developer (Freelance)

Remote | 2024 – Present

- Worked on multiple web projects within small teams, focusing on frontend development and API integration.
- Built responsive user interfaces using React and modern CSS frameworks.
- Collaborated with designers and backend developers to deliver complete features.

Frontend Development Intern

Istanbul | 2023

- Developed and optimized responsive web interfaces using **React**.
- Integrated **Strapi** as a headless CMS to manage website content, improving ease of updates.
- Implemented **GraphQL** to enhance API performance and streamline data requests.
- Optimized multilingual support with **i18n** to enhance user experience.

Projects:

➤ WhyNotGreen – eCommerce website for sustainable products.

Tech: Django Templates, Bootstrap, MySQL

- Built a responsive and user-friendly eCommerce interface with a strong focus on UX and layout consistency.
- Integrated frontend templates with backend-driven data, enabling dynamic product listings and content rendering.
- Worked with database-backed models and server-side logic to support core shopping flows.

➤ CoreHub – Business solutions website powered by Strapi CMS.

Tech: React, Tailwind CSS, Strapi CMS, REST APIs

Link: <https://corebhub.com>

- Developed a dynamic and interactive React frontend with reusable components and modern UI patterns.
- Integrated the frontend with Strapi REST APIs to fetch and manage real-time content.
- Handled data fetching, state updates, and UI rendering for API-driven pages.

➤ Saudi Solutions – Static website with a modern and engaging design.

Tech: React, Tailwind, Framer Motion

Link: <https://thesaudisolutions.com/>

- Designed and developed a responsive and scalable frontend using reusable components.
- Focused on clean UI architecture and maintainable component structure.

➤ **Thiqa Website – Static business website.**

Tech: Nextjs, React
Link: <https://thiqa.com.bh>

- Built a high-performance frontend using Next.js with optimized rendering and modern component architecture.
- Ensured responsive design and scalable UI components for future growth.

➤ **University Full-Stack Lms Project**

Tech: React, Java, Spring Boot, MySQL, REST APIs

- Developed a full-stack web application using React for the frontend and Spring Boot for the backend.
- Designed REST APIs and connected them to a MySQL database.
- Implemented basic authentication and handled full request/response lifecycle.
- Participated in database schema design and backend logic.

Education

Fatih Sultan Mehmet University

BS Computer Engineering, 4th-year student

Skills & abilities

Frontend

- React
- Next.js
- JavaScript
- HTML / CSS
- Tailwind CSS
- Bootstrap

Backend & Data

- Java / Spring Boot
- REST APIs
- MySQL (schema design, basic queries)
- Authentication concepts (JWT, sessions)

Languages

- Arabic
- English
- Turkish
